

Discover the Hi-LED 55!

The thinnest LED tile on the market that allows for a tool-free and seamless integration of videowalls in the ALUVISION modular frame system. Adding the **WOW** factor to your exhibit has never been easier!

As a leading developer and manufacturer of aluminium modular exhibit systems, Aluvision is known for its high-end quality and therefore durable solutions.

Our wide range of products include straight and curved walls, light boxes, hanging signs, raised floors and LED tiles.

Aluvision's top notch production facilities in the USA and Europe not only guarantee short lead times, but also incomparable precision in its wall frames and other products.
